November 14, 2005

Dear Jill,

Thank you for supporting the students at Masera Learning Center, an Eastern Suffolk BOCES program for children with Autism and other developmental disabilities. Your generosity is helping the Applied Behavioral Analysis/PTO meet it's goal to fund the purchase and installation of playground equipment for our students. An updated playground for our elementary level students will give them the same benefits as their non-handicapped peers. It also affords them the opportunity to learn and generalize their gross motor skills. Our students have difficulty generalizing the skills they learn in isolation in their classroom. New and improved playground conditions provide increased chances to practice social and communication skills too. On behalf of our students, thank you again for your kindness and generosity. Your thoughtfulness means a great deal to all of us!

Sincerely,

Margo Ude, principal

Karin Conrad, ABA/PTO co-president
