Dear Jillian:

Thank you for your extremely generous donation of \$100 towards our Student Government. As you know, our Special Education High School is comprised of students with various disabilities, including severe emotional and behavioral difficulties. One of our goals is to help these students exercise greater self-control and to succeed as responsible individuals who will, in turn, have a positive impact on their respective communities and on their own futures. Towards that end, we have developed a behavior modification program wherein students can earn points for positive attitude, behavior, effort, and completion of school assignments. Consistent success elevates a student to higher levels and those who achieve Level 3, currently the highest level possible, are entitled to participate in Student Government-sponsored reward opportunities. Your generosity will help us run more quality programs which will further enhance our students' incentive to succeed.

Thank you again.

Sincerely,

Dr. Barry Helprin
